Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

THE
JOURNAL OF INFECTIOUS DISEASES

The Journal of Infectious Diseases

Published by the Memorial Institute for Infectious Diseases

EDITED BY

LUDVIG HEKTOEN AND EDWIN O. JORDAN

IN CONJUNCTION WITH

FRANK BILLINGS F. G. NOVY

W. T. SEDGWICK H. GIDEON WELLS

Volume 17

1915

Chicago, 1915

Composed and Printed by
American Medical Association Press
Chicago, Illinois U. S. A.

TABLE OF CONTENTS

NO. 1, JULY, 1915 PAGE

The etiology of typhus exanthematicus (Plate 1)
Harry Plotz, Peter K. Olitsky and George Baehr - - - - - 1

On milk epidemic of sore throat and the virulence of streptococci isolated from the milk
Edward C. Rosenow and V. H. Moon - - - - - - - - 69

Predominance among the members of the bacillus coli group in artificially stored waters
William W. Brown - - - - - - - - - - - - - 72

A method of transmitting known numbers of trypanosomes with a note on the numeric relation of trypanosomes to infection
John A. Kolmer - - - - - - - - - - - - - 79

Coccidiosis in cattle and carabaos
C. H. Schultz - - - - - - - - - - - - - - 95

The "reaction" of bacteriologic culture media
William Mansfield Clark - - - - - - - - - - - 109

The characteristics of bacteria of the colon type occurring on grains
L. A. Rogers, William Mansfield Clark, and Alice C. Evans - - 137

The differentiation of bacteria of the colon-aerogenes family by the use of indicators
William Mansfield Clark and Herbert A. Lubs - - - - - - 160

Chromogenesis in cultures of sporotricha (Plates 2 and 3)
David John Davis - - - - - - - - - - - - - 174

The numerical interpretation of fermentation-tube results
M. H. McCrady - - - - - - - - - - - - - - 183

Complement fixation in hog-cholera
David J. Healy and Wallace V. Smith - - - - - - - 213

The bacteriology of ulcer of the stomach and duodenum in man (Plates 4 and 5)
Edward C. Rosenow and A. H. Sanford - - - - - - - 219

Further experiments on the variability of the fermentative reaction of bacteria, especially the streptococci
William C. Thro - - - - - - - - - - - - - 227

An infection with the paratyphoid bacillus (B. paratyphosus B)
Ernest E. Irons and Edwin O. Jordan - - - - - - - - 234

The inhibitory action of heterologous protein mixtures on anaphylaxis
Julian Herman Lewis - - - - - - - - - - - - 241

The anaphylactic reaction with so-called proteoses of various seeds. The biological reactions of vegetable proteins, VI
H. Gideon Wells and Thomas B. Osborne - - - - - - - 259

NO. 2, SEPTEMBER, 1915 PAGE

Environmental studies of streptococci with special reference to the fermentative reactions
Jean Broadhurst - - - - - - - - - - - - - 277

A bacteriologic study of secondary invaders in hog-cholera
Frederick Eberson - - - - - - - - - - - - - 331

Separation of the antibody fractions in hog-cholera serum
Frederick Eberson - - - - - - - - - - - - - 339

Toxins and the side-chain theory
Arthur F. Coca - - - - - - - - - - - - - 351

A rapid and efficient method of producing hemolytic amboceptor against sheep corpuscles
Arthur F. Coca - - - - - - - - - - - - - 361

The thyroid of the guinea-pig in experimental diphtheric intoxication
Ludvig A. Emge - - - - - - - - - - - - - 369

Leprosy — the presence of acid-fast bacilli in the circulating blood and excretions
James A. Honeij - - - - - - - - - - - - - 376

The serologic diagnosis of leprosy
S. Nakajo and T. Asakura - - - - - - - - - - - 388

Further observations on the serologic diagnosis of leprosy
S. Nakajo and T. Asakura - - - - - - - - - - - 400

Iritis and other ocular lesions on intravenous inoculation of streptococci (Plates 6-8)
Edward C. Rosenow - - - - - - - - - - - - 403

The effect on antibody production of removal of various organs
Ludvig Hektoen and Arthur R. Curtis - - - - - - - - 409

The influence of the x-ray on the production of antibodies
Ludvig Hektoen - - - - - - - - - - - - - 415

The absence of demonstrable specific antibodies in rabies caused by fixed virus
W. H. Burmeister - - - - - - - - - - - - - 423

The fate of foreign erythrocytes introduced into the blood stream of the rabbit
William E. Cary - - - - - - - - - - - - - 432

NO. 3, NOVEMBER, 1915

A new member of the aciduric group of bacilli
J. C. Torrey and A. H. Rahe - - - - - - - - - - 437

Observations on the proteolytic enzyme of Bacillus proteus. Studies in bacterial metabolism, XL
A. I. Kendall and A. W. Walker - - - - - - - - - 442

PAGE

An economical intracutaneous method for testing the virulence of diphtheria bacilli
Abraham Zingher and David Soletsky - - - - - - - - 454

The etiology of "symptomatic anthrax" in swine ("specific gas-phlegmon in hogs")
K. F. Meyer.. - - - - - - - - - - - - - - 458

Natural hemolysins in normal horse serum
Fred Boerner, Jr. - - - - - - - - - - - - - 497

The effect of bacterial metabolism on the antigenic properties and serologic reactions of bacteria
J. P. Simonds - - - - - - - - - - - - - - 506

The lesions in experimental infection with Bacterium tularense
Paul G. Woolley - - - - - - - - - - - - - - 510

The varieties of pneumococci causing lobar pneumonia with especial reference to their biologic differences
George Mathers - - - - - - - - - - - - - - 514

The importation of typhus fever into the United States
J. L. Kantor - - - - - - - - - - - - - - - 522

Nomenclature of the Coccacae
R. E. Buchanan - - - - - - - - - - - - - - 528

The effect of anaphylactic shock on the cellular reaction of the peritoneum of the guinea-pig
Francis M. Rackemann - - - - - - - - - - - - 542

An outbreak of roup and chicken-pox in which the high mortality was apparently caused by a secondary invader
B. A. Beach, H. Lothe and J. G. Halpin - - - - - - - 554

The transmission and administrative control of measles
Harold Farnsworth Gray - - - - - - - - - - 559
